

RECENT AND UPCOMING WORK

The City of Noblesville is sharing updates, details, and interesting aspects about the Reimagine Pleasant Street project to keep you updated on our progress. We encourage you to follow the project on **X** and **Facebook!**

CONSTRUCTION ACTIVITY RAMPING UP

Over the next few weeks, you may notice construction crews getting ready for the 2024 construction season. Utility relocation, tree clearing, and other preliminary work will take place before construction begins again in spring.

Indiana American Water will begin relocating water lines around 10th Street. There may be brief lane closures as crews complete their work.

We are working with residents and businesses in the area to provide awareness and information during construction.

BE SURE TO VISIT OUR WEBSITE

We've recently updated the Reimagine Pleasant Street website to include more information about the work that will be coming, what to expect, and general project information. The website will be updated regularly as construction begins with specific information about how to navigate Noblesville as construction starts on this and other projects around town. reimaginepleasantst.com

WHAT WILL HAPPEN IN PHASES 2 AND 3?

The Reimagine Pleasant Street project is broken into three different phases. In 2024, construction crews will continue work on the new bridge. They will also be constructing new roundabouts at 10th Street and Pleasant Street as well as River Road and the new Pleasant Street. This spring, crews will begin construction on Phases 2 and 3 to further improve connectivity in and around Noblesville.

Phase 2 will include widening the existing Pleasant Street to four lanes from 11th Street to 19th Street and reconstructing the roundabout at 19th Street to a two lane roundabout. The Midland Trace Trail will be extended along the north side of Pleasant Street in Phase 2 to the project's terminus at 19th Street.

Phase 3 includes a new roundabout at the intersection of Hague Road and SR 32, new roadway construction connecting the roundabout to River Road, a new bridge over Cicero Creek, and the extension of the Midland Trace Trail along the north side of Pleasant Street. The trail will connect to the existing Midland Trace Trail and Hague Road Trail with pedestrian tunnels underneath Pleasant Street and SR 32.
