

## UPCOMING CONSTRUCTION WORK

Construction activity will be ramping up in April for Reimagine Pleasant Street. Throughout the coming weeks, you may notice additional equipment and truck traffic as crews prepare for the 2024 construction season.

Drivers will notice traffic restrictions along River Road beginning on or after April 1 as crews begin to build the new roundabout for the River Road and Pleasant Street intersection. Traffic will be shifted as temporary pavement is added and the roundabout is constructed. Roundabout construction will last approximately 5 months.

Walnut Street between 8th Street and 9th Street will also be closing on or after April 9. Residents will have access to their properties at all times throughout construction. Crews will be reconstructing the road and installing new storm sewer infrastructure for what will be an extension of the Midland Trace Trail. This portion of Walnut Street is scheduled to re-open in May. *See attached Closure and Detour maps.*

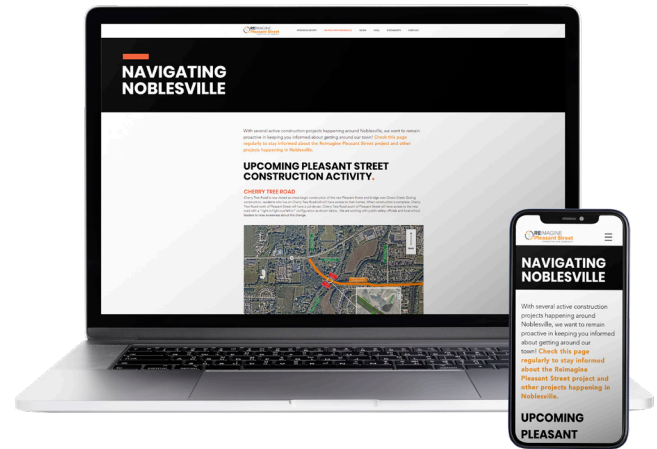

## RECENT CONSTRUCTION WORK

As we enter spring, crews have been continuing various construction activities. Bridge work has been ongoing with crews pouring concrete and adding the decorative median. Crews have also been completing trail connections near the pedestrian tunnel.

## STAY UP TO DATE ON ROAD CLOSURES AND DETOURS

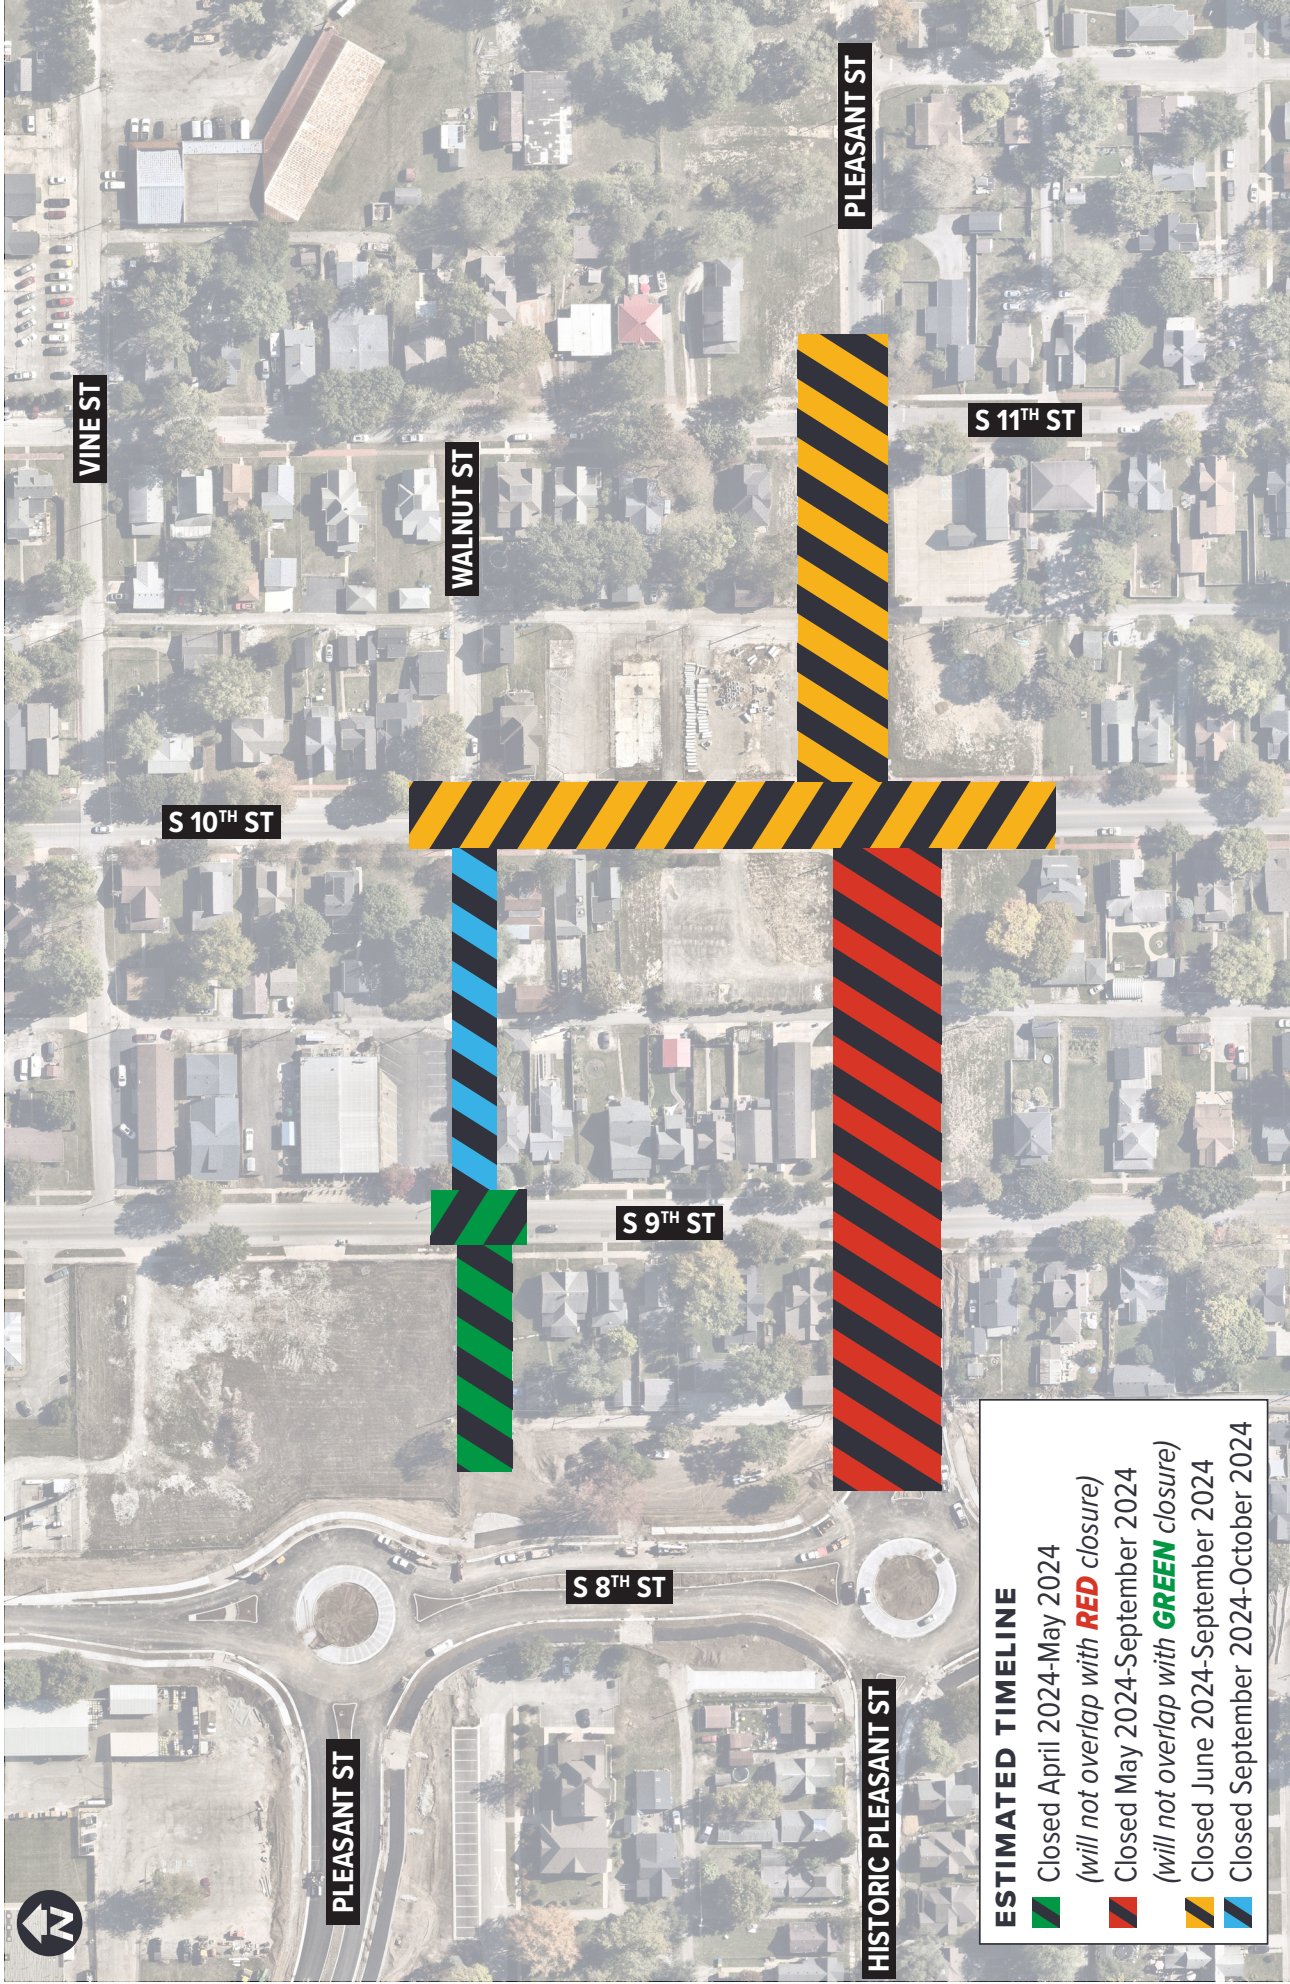

Construction activity is ramping up for several projects around Noblesville. You can visit our Navigating Noblesville page to see the latest closures and detours related to Pleasant Street and other projects across the city.
